JG Family,

As you are aware, we have made every effort to return to normal, on-campus learning for the start of the 2020-2021 school year. Earlier this month, we released our comprehensive “Back to School Plan” which detailed green, yellow, and red return to school plans.

This document can be found on our website at jgsc.k12.in.us. It was our intention to return to school on August 11th in a “GREEN” state. After careful reconsideration, we regret that is no longer possible.

John Glenn School Corporation will begin the 2020-2021 school year in a “RED” state, which means our teachers will provide most instruction in a live, but online, format.

This decision is a result of guidance from local and state health departments, due to the increase in COVID-19 cases over the month of July. Please stand-by for specific information about open house activities, supply pick-up, and the start of the school year from your building principals.

I know this is very disappointing news for all of us, but please be assured that we are making the best decision we can for the health and safety of not only our students, but staff, parents/guardians, and the entire community. I know that as a community we will handle this in an excellent way. We will continue our effort to get students back to on-campus learning as soon as we possibly can.

Yours in Education,

Christopher Winchell
